

CHICK CARE JOURNAL

Track their growth, care, and milestones along the way.

HENFOLK™

Daily notes, milestones, and little moments from the brooder.

Hello there!

Raising chicks is full of tiny milestones: their first curious peck, their first flap of wings, their first nap pile under the brooder plate.

Use this to jot down your daily notes and observations. It’s a simple way to track their growth and notice patterns, while also capturing the joy of these early days.
